

Cedar Park STEM Emphasis Diploma

Commitment Sheet

Name: _____ Class of: _____

I am choosing to pursue the STEM Emphasis Diploma because :

After I graduate my post-secondary plans are to:

How does pursuing S.T.E.M. influence my future career goals?

Notes & Reminders: Please initial by each to show that you know and understand these facts

___ I will work with the school counselor to create a 4-year plan of courses to accomplish all required credits. I understand that I may need to adjust my plan as I progress through my four years.

___ Students can earn the engineering credit through taking 1 credit of Engineering Design or through two seasons of Robotics.

___ Students pursuing the S.T.E.M. Emphasis Diploma will need to take two sciences one of the four years of high school

___ Students will need to take the STEM Capstone Writing class 1st Semester during their senior year.

___ this is the suggestion progression of the Tech classes in STEM: Computer Science, then two of the STEM elective classes (Java, Web Design, VB.Net, Game Design, 3-D Art 1, 3-D Art 2)

___ As a STEM student I can earn the College Prep or Honors College Prep Diploma

I understand that pursuing the S.T.E.M. emphasis diploma requires more credits than the College Prep or Honors College Prep diplomas. In order to accomplish this task, I will meet with the school counselor often to assure I am on track with all my credits. I will communicate with my teachers and my parents often about my progress so we are all aware of what I need to graduate.
